

# EGRESS WINDOWS IN SLEEPING ROOMS & BASEMENTS MINIMUM SIZE

Section 310.4, 2001 California Building Code:

"Basements in dwelling units and every sleeping room below the fourth story shall have at least one operable window or door approved for emergency escape or rescue that shall open directly into a public street, public alley, yard or exit court. The emergency door or window shall be operable from the inside to provide a full, clear opening without the use of separate tools. . ." note: windows below grade require a window well and special requirements, see Section 310.4
